Conference for the  International Federation of Operational Research Societies

Call for Papers

19th Triennial Conference of
the International Federation of Operational Research Societies
10th – 15th July, 2011
Melbourne, Australia

World OR: Global Economy and Sustainable Environment

Recent natural catastrophes and man-made crises have underscored the interconnectedness of our world. Any upheaval leads to momentous reverberations across the globe with impacts well into the future.

Now more than ever, Operational Research is of strategic importance to address problems critical to the economy and the environment. Academics and practitioners are invited to share their knowledge, experience and insights on theory, methodology and application of operational research to issues of vital concern to the global community.

The Opening Plenary talk "*Optimal Choice Sets: How tightly should we regulate?*" will be given by Sir James Mirrlees, Trinity College, Cambridge, Nobel laureate in Economics 1996.

Abstract Submission now open:

Papers on all aspects of Operational Research are invited. Authors wishing to present are requested to submit an abstract of not more than 100 words via the Abstract Submission system at:

<http://www.euro-online.org/conf/ifors2011/>

Abstract Submission deadline: 31st January, 2011

The scientific program includes over 50 invited streams covering all aspects of Operations Research, see the Program section of the conference webpage: <http://www.ifors2011.org>.
