

Mostly OM

International Workshop on Advanced Topics of Operations Management

Tsinghua University, Beijing, China

May 26-28, 2010

About "Mostly OM"

Mostly OM is an annual international workshop focusing on the state-of-the-art research in Operations Management (OM), broadly defined. Mostly OM aims to provide a forum for researchers to foster interaction and exchange ideas, learn from each other new methodologies and applications, and explore opportunities for collaboration. Each workshop will feature several tutorials that provide in-depth coverage on some of the latest trends and developments in OM research. These will be complemented by a select set of invited presentations from leading researchers worldwide, on topics that are mostly OM but also include other subjects of interest to the community.

Speakers

Fangruo CHEN, Columbia University;
Hong CHEN, University of British Columbia;
Albert HA, Hong Kong University of Science and Technology;
